- Houses are usually close to street, we have two driveways plus one shared with barn. North neighbor has 9 acres going same depth as ours plus was bequeathed the land across the street. There's a double wide prefab home and barn. South neighbor has 3 acres.
- Orchard is between us and south neighbor – 40 trees
- Field was hay but is overgrown

A recent conversion of the original two car garage to an office, makes the house long. Front door entry is sliding door. Entry area needs weeding
